Two rectal swabs were sent to IAV Thonnakkal, one was positive for Noro G2 Virus & another for Human Astrovirus. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

KL/KSG/2025/06/210	**Kerala**	**Kasaragod**	**Food Poisoning**	55	0	04-02-2025	04-02-2025	**Under Surveillance**	Cases were reported from BFHC Vellarikundu, Village: Parappa, Sub-District: Vellarikkundu, District: Kasaragod. Cases presented with vomiting, diarrhea, fever, nausea, and abdominal discomfort after attending a temple festival from 30-01-2025 to 02-02-2025. Two samples were collected & sent to Microbiology Lab, GMC Kannur & NIV Alappuzha, both were negative for any entero-pathogen on culture and on viral panel. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
KL/KTM/2025/06/211	**Kerala**	**Kottayam**	**Hepatitis A**	32	0	06-02-2025	07-02-2025	**Under Surveillance**	Cases were reported from a hospital under FHC Ramapuram, Village: Ramapuram, Sub-District: Meenachil, District: Kottayam. Cases presented with fever, abdominal discomfort, vomiting and fatigue. The affected cases were in the age group of 24-56 years. Total 13 serum samples were sent to GH Kottayam, all were positive for Hepatitis A IgM by ELISA. All other cases were epidemiologically linked cases. Three water samples were sent to KWA, which showed presence of coliforms. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
KL/KTM/2025/06/212	**Kerala**	**Kottayam**	**Chickenpox**	12	0	31-01-2025	06-02-2025	**Under Surveillance**	Cases were reported from a boy's hostel under FHC Mutholy, Sub-District: Meenachil, District: Kottayam. Cases presented with fever with rash. The affected age group was 18-20 years. All cases were diagnosed clinically. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

KL/KOZ/2025/06/213	**Kerala**	**Kozhikode**	**Food Poisoning**	76	0	06-02-2025	06-02-2025	**Under Surveillance**	Cases were reported from a school under CHC Kunnummel, Village: Kunnummal, Sub-District: Vatakara, District: Kozhikode. Cases presented with vomiting and loose stools. Water sample was sent to KWA Koyilandy, which showed presence of coliforms. Two stool samples were sent to RPHL KKD. Cultures of both stool samples were negative for Salmonella, Shigella and Vibrio. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
KL/MLP/2025/06/214	**Kerala**	**Malappuram**	**Hepatitis A**	14	0	06-02-2025	06-02-2025	**Under Surveillance**	Cases were reported from CHC Edavanna, Sub-District: Ernad, District: Malappuram. Cases presented with jaundice. Two blood samples were sent to GMCH Manjeri, both were positive for Hepatitis A IgM ELISA. All other cases were epidemiologically linked cases. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
KL/MLP/2025/06/215	**Kerala**	**Malappuram**	**Hepatitis A**	20	0	06-02-2025	06-02-2025	**Under Surveillance**	Cases were reported from PHC Thrippanachi, Sub-District: Ernad, District: Malappuram. Cases presented with jaundice. Two blood samples were sent to MCH Manjeri, both were positive for Hepatitis A IgM ELISA. All other cases were epidemiologically linked cases. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

KL/TRC/2025/06/216	**Kerala**	**Thrissur**	**Mumps**	30	0	03-02-2025	04-02-2025	**Under Surveillance**	Cases were reported from a school under CHC Thriprayar, Village: Vadakkummuri, Sub-District: Thrissur, District: Thrissur. Cases presented with fever, throat pain, swelling in parotid area. Three buccal swabs were collected and sent to NIV Alappuzha for confirmation, out of which one was positive for Mumps by PCR. All other cases were epidemiologically linked cases. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
KL/WYN/2025/06/217	**Kerala**	**Wayanad**	**Acute Diarrheal Disease**	8	0	02-02-2025	04-02-2025	**Under Surveillance**	Cases were reported from FHC Poothadi, Sub-District: Sulthanbathery, District: Wayanad. Cases presented with loose stools. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/ASN/2025/06/218	**Madhya Pradesh**	**Ashoknagar**	**Measles**	11	0	05-02-2025	05-02-2025	**Under Surveillance**	Cases reported from Village Tinsi, HWC Nadan Khedi, CHC Mungaoli, Block Mungaoli. Cases presented with fever with rash. The affected age group was 4-16 years. All cases were vaccinated. Total 7 samples were collected and sent to GMC Bhopal, all 7 were positive for Measles IgM by ELISA. All other cases were epidemiologically linked cases. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/CHT/2025/06/219	**Madhya Pradesh**	**Chhatarpur**	**Measles**	9	0	08-02-2025	08-02-2025	**Under Surveillance**	Cases reported from Ward 20 & 31, Chhatarpur Urban. Cases presented with what fever with rash, cough. The affected age group was 1-9 years. Nine blood serum samples were sent to ICMR Jabalpur, out of which 7 were positive for Measles IgM by ELISA. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MP/GNA/2025/06/220	**Madhya Pradesh**	**Guna**	**Measles**	16	0	03-02-2025	03-02-2025	**Under Surveillance**	Cases reported from Village Hinotiya, HWC Matamudra, Block Aron, District Guna. Cases presented with fever with rash. The affected age group was 1-8 years. One serum sample was collected & sent to GMC Bhopal, which was positive for Measles IgM by ELISA. All other cases were epidemiologically linked cases. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MP/SHV/2025/06/221	**Madhya Pradesh**	**Shivpuri**	**Acute Diarrheal Disease**	184	0	03-02-2025	03-02-2025	**Under Surveillance**	Cases were reported from PHC Sirsod, CHC Karera, Village: Mamoni Kalan, Sub-District: Karera, District: Shivpuri. Cases presented with loose stool, fever & vomiting after attending a religious gathering. The most affected age group was 15-44 years. Three stool samples were collected and sent to GMC Shivpuri, all showed growth of Salmonella species on culture. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MH/AMR/2025/06/222	**Maharashtra**	**Amravati**	**Acute Gastroenteritis**	16	0	03-02-2025	04-02-2025	**Under Surveillance**	Cases reported from Mandwa Village, Ghuikhed PHC, Block Chandur Railway. Cases presented with loose motions, vomiting, nausea and abdominal pain. All age groups were affected. Total 13 water samples were collected & sent to DPHL Amravati, out of which 4 were found to be non-potable. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.

MH/KOL/2025/06/223	**Maharashtra**	**Kolhapur**	**Food Poisoning**	651	0	05-02-2025	05-02-2025	**Under Surveillance**	Cases were reported from Village: Shivnakwadi, Sub-District: Shirol, District: Kolhapur. Cases presented with loose stool after attending a religious gathering. Three stool samples were sent to DPHL, which were found to be negative for any entero-pathogen on culture. Six water samples were collected & sent to DPHL, out of which three were found to be unfit for drinking. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on control measures, hygiene and sanitation.
MH/THN/2025/06/224	**Maharashtra**	**Thane**	**Chikungunya**	15	0	01-02-2025	06-02-2025	**Under Surveillance**	Cases were reported from Village: Sawarne, Sub-District: Murbad, District: Thane. Cases presented with fever. All age groups were affected. Total 15 blood samples were sent to District Civil Hospital Thane, out of which 6 were positive for Chikungunya & and 1 was positive for both Dengue & Chikungunya. District RRT investigated the outbreak. Community awareness and health education given by peripheral team on vector control measures, hygiene and sanitation.
MG/NGH/2025/06/225	**Meghalaya**	**North Garo Hills**	**Human Rabies**	1	1	05-02-2025	05-02-2025	**Under Surveillance**	Cases were reported from Dainadubi PHC, Keragalram Village, Sub-District: Resubelpara, District: North Garo Hills. Cases presented with fever, body ache and headache on 20th January 2025. There is history of dog bite on 7th December 2024 and the case did not receive post-exposure prophylaxis (PEP).
